FOR IMMEDIATE RELEASE: March 15, 2012

Pro-Cut's **50-683 Adapter** will ship to all Nissan dealers that sell and service the new line of NV cargo vans.

NISSAN SHIPS PRO-CUT ADAPTER TO ALL NV VAN DEALERS

West Lebanon, NH

USA Nissan dealers that sell Nissan's new line of NV cargo vans will be shipped a Pro-Cut adapter (part no. 50-683) which allows technicians to service these vans with the Pro-Cut on-car brake lathe. Nissan North America mandated the Pro-Cut on-car lathe for all their USA and Canadian dealers in 2005 as a means to insure the highest quality brake service for their customers. The latest essential tool shipment of the adapter was brought on by the introduction of a new hub and axle in the innovative NV van platform.

"We're very pleased that Nissan continues to see the value of the Pro-Cut service model and look forward to supporting the successful launch of their new cargo van," says Bruce Prince, VP national accounts.

Pro-Cut International is the world leader in on-car brake lathes. The company is located in West Lebanon, NH.
