adjustable trolley

In November, 2010, after an evaluation of various on-car brake lathe models, Ford Motor Company in China selected the Pro-Cut PFM on-car brake lathe as Preferred Equipment. Ford of China has mandated that all dealers who provide service to imported Ford cars use the Pro-Cut. Sixty-six units have been ordered to date.

"We are pleased to welcome Ford of China as the newest service provide to select Pro-Cut as the only acceptable method for fixing modern disc brake systems," says Dwight O'Hara, International Sales Manager.

Pro-Cut International is the world leader in on-car brake lathes. The company is located in West Lebanon, NH.
