Pro-Cut's latest model — the **PFM 9.2 DRO-Live** On-Car Brake Lathe

PRO-CUT RECEIVES PTEN INNOVATION AWARD FOR THE PFM 9.2 DRO-LIVE ON-CAR LATHE

A panel of independent techs and mechanics recently selected the Pro-Cut 9.2 DRO-Live On-Car Brake Lathe as a 2008 PTEN Innovation Award winner.

The Pro-Cut is the only on-car lathe in the world to offer automatic runout compensation. The PFM 9.2's LED display captures data on lathe performance that provides shops with the means to insure profitability of the machine. Each PFM 9.2 includes initial setup as well as a 6 and 12 month visit from the rep.

Pro-Cut on-car lathes are used by virtually every national account service chain and auto manufacturer.

Pro-Cut International is the world leader in on-car brake lathes. The company is located in West Lebanon, NH.
