## PRO-CUT RECEIVES DEPARTMENT OF DEFENSE PATRIOT AWARD

West Lebanon, NH

Employer Support of the Guard and Reserve (ESGR) on behalf of the Department of Defense presented their Patriot Award to Pro-Cut International for supporting employee participation in the National Guard and Reserve Force. Pro-Cut was nominated for the award by PFC Andrew Swift, an IT manager at Pro-Cut and member of the 167th Combat Sustainment Support Battalion out of Manchester, NH.

In nominating Pro-Cut Swift wrote: "My company has been extremely supportive of my Army service. In less than two years, my supervisors have dealt with my enlistment, Initial Entry Training, and now my impending deployment to wartime service in Iraq. In all that time, Pro-Cut has never reacted in anything other than a calm, professional, and above all supportive manner. Regardless of the inconvenience, with short warnings of absence and changing training schedules, they have always looked out for me and welcomed me back to the fold with open arms. As an entire company and as individuals, they deserve recognition for their support of me and my service. As I prepare to leave for war, I have the security of knowing that I have employment waiting patiently for my return."

Swift will be deployed to Iraq where he will serve in an intelligence capacity monitoring and interpreting intercepted insurgent communications. Since his deployment he has been promoted from PFC to Specialist (SPC).

**Pro-Cut International** is the world leader in on-car brake lathes. The company is located in West Lebanon, NH.
