MassBay Community College Becomes 1st Official TrainSMART Location

West Lebanon, NH

MassBay Community College, based in Ashland, MA, has partnered with Pro-Cut International to become the first TrainSMART location in the United States. TrainSMART is Pro-Cut's nationwide training and certification program in rotor matching.

MassBay is a premiere technical school that offers training through many OEM programs including Toyota, GM, Chrysler, and BMW. Their commitment to offering top-of-the-line equipment, classroom facilities, and instructors has made them a leader in the tech-school community.

In partnering as a TrainSMART location, MassBay allows the Pro-Cut Rep to come to the school every other month to provide classroom training and hands-on instruction for the on-car brake lathe and rotor matching.

"We are very pleased to be partnering with this institution," said Cody Dodds, TrainSMART Director. With the knowledge and passion we see from MassBay students and professors, I know they will serve as an exceptional training facility for our training program."
