Has 5 on 208 and 6 on 222 bolt patterns.

DUAL WHEEL REAR EXTENSIONS

50-495K

- 50-495K** **Extension Kit** — for flat slide plates **50-498** and **50-499** only — Allows cutting head to reach rotor in high offset situations like Ford F450 & F550. Includes three sets of adapter standoffs for all Ford trucks. May require the use of an extended lead screw. Kit includes Extended Plate, and 50-005, 50-007, and 50-009 Stand Offs.

- 50-492K** **Extension Kit** — for **50-496 (Speed-Lock) slide plate** only — Allows cutting head to reach rotor in high offset situations like Ford F450 & F550. Includes three sets of adapter standoffs for all Ford trucks. May require the use of an extended lead screw. Kit includes Extended Plate, and 50-005, 50-007, and 50-009 Stand Offs. (Image not shown.)

- 50-006** **GM 3500HD Stand Offs** to extend the dual wheel adapter over rear hubs. May require the use of extension plate (call factory or local rep for details and other part numbers required).

50-035

- 50-035** **Extended Lead Screw** — Required for use on rear rotors larger than 15.25" — some F550s, for example. For lathes with 50-498 or 50-496 slide plates only.
