ROTOR MATCHING SYSTEMS

WHAT BRAKESAVER OFFERS YOU

The BrakeSaver program combines the world's best brake service equipment with the sales and marketing support to make it a stand-alone profit center for your shop. Best of all, the profits are backed by a 90 day money-back GUARANTEE! Let's roll up our sleeves:

The Tool | Pro-Cut's Rotor Matching System has been the top choice of OEM's for over two decades.

The Support | Pro-Cut provides you with sales material and training to ensure new revenues.

The Guarantee | Pay in full and receive a 100% refund if you're not satisfied after 90 days.

WHAT BRAKESAVER OFFERS CUSTOMERS

Much like every tire and wheel assembly needs to be balanced, a rotor must be matched to the hub for it to wear evenly and perform as designed. Brakesaver offers your customers a longer lasting rotor matching solution, which is environmentally friendly at a competitive price. Brakesaver Rotor Matching Service is simply:

The best brake service available.

The most cost-effective brake service.

A green solution for the environment.
