Everyone Wins!

Profits Guaranteed or Your Money Back!

BrakeSaver is Powered by...  **PRO-CUT**
BRAKE SOLUTIONS

WHAT THE BRAKESAVER OFFERS YOU

The Tool *The Pro-Cut on-car brake lathe has been the top choice of OEM's for over 2 decades.*

Pro-Cut's on-car brake lathes are a required piece of equipment for every Ford, GM, Honda, Subaru, and Nissan dealer and highly recommended by virtually every other OEM in the world. OEM's know that matching the rotor to the hub with a Pro-Cut on-car lathe is the only way to make sure that brake problems are fixed the first time.

The Support *Pro-Cut provides you with sales material and training to ensure new revenues.*

STEP 1: Thorough on-line training for technicians and service writers prepares your shop for arrival of the BrakeSaver rotor matching service.

STEP 2: Professional on-site technician & Service writer training will be provided by an expert Pro-Cut Representative to round out their skills.

STEP 3: The Pro-Cut Rep will present the point of sale materials and help you announce the arrival of the BrakeSaver Rotor Matching Service to your customers!

STEP 4: Your shop will be listed on the Pro-Cut website as a certified BrakeSaver Rotor Matching Service Center

The Guarantee *Pro-Cut offers you 2 ways to buy with a MONEY BACK GUARANTEE!*

90 DAY
Guarantee
OR YOUR
MONEY BACK

1. **PAY IN FULL and RECEIVE 100% REFUND** if you're not SATISFIED AFTER 90 DAYS. *No questions asked!*

2. **MAKE THE 60 MONTH LEASE PAYMENT** for UP to THREE MONTHS. If you're not satisfied we'll remove the lathe with no further obligation. If you choose to buy, all payments will be applied to the purchase price.

WHAT BRAKESAVER OFFERS YOUR CUSTOMERS

"I like saving on new rotors, and it's great to feel smoother braking every time, without the wobble or pulsation I used to experience. Most important of all, I know I'm keeping my precious cargo as safe as possible."

- Amanda Poulet, Winchester, CT

The Best Brake Service Available

Just as every tire and wheel assembly needs to be balanced, a rotor must be matched to the hub for it to wear evenly and perform as designed. Brake engineers from around the world agree that the Pro-Cut on-car brake lathe is the fastest, simplest, and most accurate way of matching rotors to the hub.

The Most Cost-Effective Brake Service

The Pro-Cut process is so simple and fast that you can offer your customers a competitive price and still be profitable. In many cases the existing rotor can be reconditioned to as good as new! Your customers get the best brake service for a fair price.

A Green Solution or the Environment

BrakeSaver helps keep the OE rotors out of the recycling bin before their time extending the life of the earth's precious resources. Most newer rotors actually have more material for wear and machining, not less!

A Longer Lasting Brake Job

Matching new or used rotors to the hub makes the brake job last longer by making the brake pad/rotor interface nearly perfect. This gives your shop the opportunity to offer your customer a longer warranty on the service to further differentiate your shop from the guys down the street who are still doing brakes the old way.

PAY YOUR TECHS AN EXTRA .2 HRS!

A small price to pay to insure your technicians buy in to the system and represents a small portion of the new revenue from the BrakeSaver program. It's the final piece that insures the shop, the customer, AND the technician all benefit from BrakeSaver!

TIP

PC-BSB

LET BRAKESAVER SHOW YOU THE MONEY (OR you get your money back!)

Efficiency, quality, and ease of use are all important but in the end, it's about the money. If a new piece of equipment can't come into your shop and pay for itself in less than a year it's probably not worth the investment. We offer the 90 day money back guarantee to prove that we can have you well on your way to ROI in one quarter!

EXTRA PROFIT / YEAR

The investment is returned in less than one year! Estimate your NEW profits per year...

		\$ Charged for BrakeSaver / Axle			
		\$10	\$20	\$40	\$60
BRAKE JOBS / WEEK	5	\$2,600	\$5,200	\$10,400	\$15,600
	10	\$5,200	\$10,400	\$20,800	\$31,200
	20	\$10,400	\$20,800	\$41,600	\$62,400
	40	\$20,800	\$41,600	\$83,200	\$124,800
	60	\$31,200	\$62,400	\$124,800	\$187,200
		PAYBACK OVER ONE YEAR			
		PAYBACK AROUND ONE YEAR			
		PAYBACK LESS THAN ONE YEAR			

Stop throwing away perfectly good rotors and start earning money by making them better than new!
