

WHAT'S IN IT FOR YOU?

Rotor matching is as basic as balancing wheels—and the only way to truly fix brakes. Pro-Cut has put together the **RMS Training and Marketing System** with everything your shop team needs to offer this profitable NEW brake service. The kit includes complete set-up instructions for Shop Managers; training and certification for Service Advisors and Techs, and point-of-sale materials to sell the rotor matching service. Get RMS up and running in your shop—and watch it generate profits from day 1!

- 1 Pick your equipment.
- 2 Get trained.
- 3 Sell your RMS service.

We've created a line of machines that are designed for years of productive use and **ease-of-use**.

We've designed the system for using the lathe to turn out a **top-quality brake job** and **maximize shop profits**.

Your RMS Kit includes everything you need to deliver the service—including **Training, Certification, and Support**. Your Pro-Cut Rep will help oversee all RMS certification programs.

ROTOR MATCHING IS REQUIRED
by every major auto manufacturer. For details, go to: www.procutusa.com

Certified Rotor Matching Centers are listed on our website, showing customers your commitment to top-quality brake service and helping drive traffic to your shop.

We've got what you need to get your shop ready with **Point-of-Sale materials**. Our premium stainless and aluminum rotor runout display model will help you to easily communicate the value of rotor matching to your customers.

Point-of-Sale Rotor Runout Display Model

RMS-ed Our educational partners receive all Rotor Matching System training materials, a complete syllabus, and a student technician certification program.
