50-488 Short Slide Plate

50-488 Slide Plate

50-489 Gib Wedge

50-079 Shut-off Rail

50-488 Slide Plate

There is a variation of the 50-486 Slide Plate that allows a little more room between the back of the slide plate and the wheel well. The 50-488 plate is approximately 3/4" shorter in depth than the 50-486 slide plate. The 50-488 requires gib wedge 50-489 and shut off rail 50-079.

PFM9.2 from serial # 36032 and X-9 from serial # 01042 will come equipped with the 50-488 Slide Plate. A-10's will not come with the 50-488, they will continue with the full size 50-486 Slide Plate.

Contact the Pro-Cut Service Department at 800.543.6618, Prompt #2, with any questions.
