● **2004 Ford F-150
UPDATE**

50-699 Direct Fit Adapter

The 2004 Ford F150 has a new 6x135mm bolt pattern that is only found on the Pro-Cut 50-699 adapter. This 50-699 adapter is not included in standard adapter packages so Pro-Cut users will need to purchase one in order to service this popular truck.

The 50-699 IS THE ONLY PRO-CUT ADAPTER THAT WILL FIT THE 2004-AND-UP FORD F150 PICKUP.

The 2004 F150 vehicle lug nuts can be used to connect the adapter.

The adapter may be purchased through Pro-Cut.

Cutting heads on VBG620 model lathes with the 5-hole 50-499 plates will not reach deeply enough to machine the rotor. These model lathes will require either a 7-hole 50-499 plate or a 50-497 reach extension plate.

Contact the Pro-Cut Service Department with any questions: 800-543-6618.

Now with factory-trained sales and service across the country!
