

## PFM 9.2 On-Car Brake Lathe Honda/Acura Package

Model No. PCIPFM92HON

The PFM 9.2 DRO On-Car Brake Lathe platform provides flexibility to add the features that best serve your technicians, your customers, and your bottom line. Each plug and play upgrade package can be evaluated on its merits. Go simple, or go high tech with this modular design that lets you add what you need, when you need it. The base unit is a mid-sized lathe with all the bells and whistles, including fixed-post trolley, speed-lock cutting head, and electronic reporting that monitors lathe use, efficiency, and ROI. In addition, this package comes complete with an Accessory Kit and three piece Honda/Acura Adapter Package, that was specially designed to meet Honda refinishing requirements.

### Features:

- DRO (Digital Read Out) computer with digital display of live run-out and "odometer" readings that provide motor hours, number of cuts, average comp time, and ROI data. Live run-out provides assurance that manufacturer specs are met with every brake job, reducing customer comebacks. The odometer allows you to track the performance of the lathe so you can measure profitability and schedule maintenance when needed.
- Speed-lock cutting head requires no hand tool set-up and adjusts with one hand. Set up is faster and more accurate with fewer hassles for the technician.
- Fixed post, disc-lock trolley features sealed bearings, a positive locking mechanism, and fixed post to accept GYR upgrade. Also provides a wider base for greater stability and new carriage design for perfect zero gravity effect.
- 1.0 HP motor has all the power you'll need and the convenience of 110V electrical supply.
- Sculpted lathe body with built in handles provides natural vibration dampening and is virtually indestructible.

### Specifications:

Rotor Thickness (Maximum - Minimum): ... 1.75" - 0.2"  
 Rotor Diameter (Maximum - Minimum): .... 17.2" - 4"  
 Maximum Depth of Cut: ..... 0.020" / Side  
 Spindle Speed: ..... 123 r.p.m.  
 Carriage Speed: ..... 0.005" / rev.  
 Motor: ..... 1.0 HP  
 Electrical Supply: ..... 120V / 1 PH / 60 Hz

### Service Tips

- Always be sure the hub mounting surface is free of rust and dirt before installing adapter. A quick way of doing this is using the Scotch-Brite Roloc Brake Hub Cleaning Kit (PCI503MSCOTC) available through the Honda Tool and Equipment Program.
- The specially designed three piece Honda/Acura Adapter Package (PCI503ADPHO) can be used on PFM 9.2 and newer to achieve Honda/Acura refinishing requirements.

# \$8,879.00

Price and product information are subject to change without notice.

We offer two convenient ways to order, online or by toll-free phone:

- To order online, go to [iN: Service/Quick Links/Tool and Equipment Program](#) and then search by model number.
- To order by phone, call **1-888-424-6857**. Customer service representatives are available from 7:30 AM until 7:00 PM CT, Monday through Friday.

Supplied by: **Pro-Cut International**

**Alignment, Wheel, and  
Brake Equipment  
On-Car Brake Lathes**

## Includes:

- PCI37034** PFM 9.2 DRO On-Car Brake Lathe & Trolley
- PCI50703** Pair of S Hooks
- PCI50754** Chip Deflector (Standard)
- PCI50729** Chip Deflector (Heavy Duty) - *Not Shown*
- PCI50742** Brake Spec Guide - *Not Shown*
- PCI50742** Silver Cutting Bits - 10 Piece
- PCI50752** Lathe Cover
- PCI503ADPHO** 3 Adapter Package - Honda/Acura: *Can be used on PFM 9.2 and newer to achieve Honda/Acura refinishing requirements.*
- PCI50996** 4 Lug Honda/Acura Adapter, Red label (56 mm / 4 x 100 mm)
- PCI50997** 5 Lug Honda/Acura Adapter, Blue label (64 mm / 5 x 114.3 mm & 120 mm)
- PCI50998** 4 & 5 Lug Honda/Acura Adapter, Yellow label (70 mm / 5 x 114.3 mm)\*

*\*The Yellow label adapter is currently being modified to include a missing 4 x 114.3 mm bolt pattern. When the new adapter becomes available, it will be shipped to you at no additional charge. Go to the Online Catalog or call 1-888-424-6857 for additional details.*

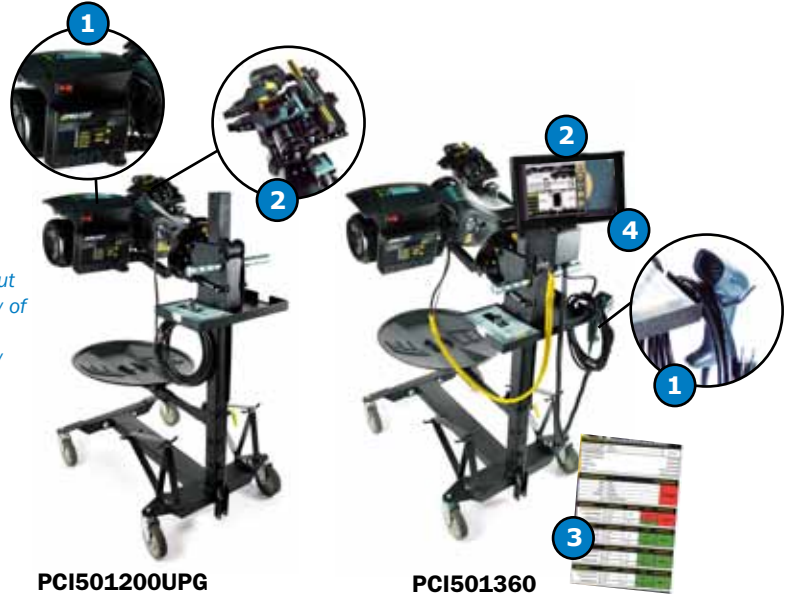

## Options:

- PCI503MSCOTC** Scotch-Brite Roloc Brake Hub Cleaning Kit
- PCI501200UPG** G2X Upgrade Package\*\*  
*Upgrades Basic Lathe to DRO G2X with live run-out and thickness measurement. Includes GYR cutting head with measurement unit, GPM module, and all necessary cables.*  
*\*\*The G2X (PCI501200UPG) Upgrade Package will not plug and play with lathes sold before 01/01/12.*

**PCI503MSCOTC**

- PCI501360** GYR Upgrade Package\*\*\*  
*Upgrades DRO G2X to full GYR with live feedback and computer direction and reporting. Includes scanner, tablet, tablet holder, and GYR application.*  
*\*\*\*Requires G2X Upgrade Package. To continue the vehicle data and system updates after the first year there is a \$395 annual license fee charged by Pro-Cut directly. The charges will be billed on the anniversary of original purchase date of the brake lathe. The GYR (PCI501360) Upgrade Package will not plug and play with lathes sold before 01/01/12.*

**PCI501200UPG**

- 1) Live Rotor Thickness Measuring
- 2) All New! - Smart Cutting Head

**PCI501360**

- 1) Rotor Specs for Every VIN
- 2) Computer Directed In-Spec Repair
- 3) Instant Repair Reports
- 4) All History Stored

## Warranty:

One year manufacturer warranty on parts and labor.  
*Training and installation included for lathe package by the manufacturer.*
